

Dear Council Members:

We are pleased to bring you the voting results for the inaugural awards as specified in Council Circular 2006\02.

Please join us in offering our heartiest congratulations to:

Sagary Nokoe - Recipient of the Rob Kempton Award for Outstanding Contribution to the Development of Biometry in the Developing World.

Andrew Mead - Recipient of the Award for Outstanding Contribution to the Development of the IBS.

Although there is only one award recipient for each, the contributions by our other nominees are extremely meritorious and have served to further develop and strengthen our Society. Indeed, we are very fortunate for their dedication and appreciate their generosity.
